ACKNOWLEDGMENTS

A Technical Review Team (TRT) provides oversight for the CHAIN Project in New York City and in the Tri-County area of Putnam, Rockland, and Westchester counties. In addition to Peter Messeri, PhD, Angela Aidala, PhD, and David Abramson, of Columbia University’s Mailman School of Public Health, TRT members include Mary Ann Chiasson, DrPH, MHRA (chair); Kevin Garrett, Mayor’s Office of AIDS Policy; JoAnn Hilger, NYCDOH; Julie Lehane, PhD, Westchester County DOH; Jennifer Nelson, MHRA; and Fatima Prioleau, PWA Advisory Group. Additionally, the Tri-County CHAIN project regularly consults with Tom Petro, Julie Lehane, Basil Reyes, and Renee O’Rourke of the Westchester Department of Health.

This research was made possible by grant number H89 HA 0015-12 from the US Health Resources and Services Administration (HRSA) HIV/AIDS Bureau. The CHAIN study is supported by the HIV Health and Human Services Planning Council of New York under a Title I grant of the Ryan White Comprehensive AIDS Resource Emergency Act of 1990 through the New York City Department of Health. It is conducted under the auspices of the Medical and Health Research Association of New York City, Inc, and in Tri-County under the Westchester Department of Health. Its contents are solely the responsibility of the researchers and do not necessarily represent the official views of the U.S. Health Resources and Services Administration; the City of New York; Putnam, Rockland, or Westchester counties; or the Medical and Health Research Association of New York.
